31	Grade 3 EOG Math Test

## DRESS CODE

Please do not forget to adhere to the ABSS and SME Dress Code. Students need to be dressed appropriately for the learning environment. Spaghetti strap shirts and “short” shorts should be avoided. Flip flops should also be avoided to prevent accidents on the playground. Thanks for assisting us with maintaining a safe, respectful, and focused learning environment for our students.

## SUMMER MATH CHALLENGE

Did you know that, on average, students lose approximately 2.6 months of grade level equivalency in math skills over the summer months? MetaMetrics® is trying to stop this loss in math skills by offering the Summer Math Challenge. The Summer Math Challenge is a free, six-week, email-based, math skills program for students who have finished second through fifth grades. As a part of the program, parents receive daily emails with fun, targeted activities and resources to help children retain the math skills learned during the previous school year. The Summer Math Challenge begins Monday, June 18, and runs until Friday, July 27. For more information, including how to encourage your students to participate in the Summer Math Challenge, visit [www.quantiles.com/summer-math](http://www.quantiles.com/summer-math).
