

Dragon Days

NOVEMBER 2018

From THE DRAGON'S DEN

During the first 9 weeks we focused on “*leading the way to a brighter future*” by teaching the Zones of Regulation and the core principles of **Habit 1: Be Proactive**. Our students learned that they are in charge of themselves and responsible for their actions, attitudes, and moods, as well as, doing the right thing without being asked. As we begin the second 9 weeks, we are now focusing on the principles of **Habit 2: Begin With the End in Mind**. This habit teaches us to plan ahead, set goals, and to look for ways to achieve the goals and be a good citizen. The timing is perfect to make a plan and set goals for the next 9 weeks. During the required parent/teacher conferences you will be informed of where your child is with his/her academic and behavioral skills. Your child’s teacher will also discuss with you where your child should be at the conclusion of this school year and the plan to support your child in making growth and achieving mastery. Please discuss with your child his/her goals and the plan to achieve the goals as we all “begin with the same end in mind”, which is our students’ success as learners and leaders!

SIGNATURE SCHOOL

Congratulations to SME for
Leading the Way!

We have been recognized as a Piedmont
Triad Signature School due to our students’
growth on the 2017-18 EOG and our overall
positive school culture!
