

Engage in Science

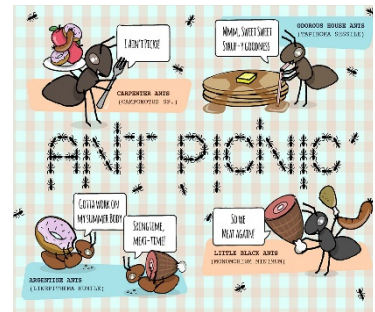

Summer STEM Tour 2019

Hands-on Science Summer Camp

For Rising ABSS 9th graders

June 18-20, 2019

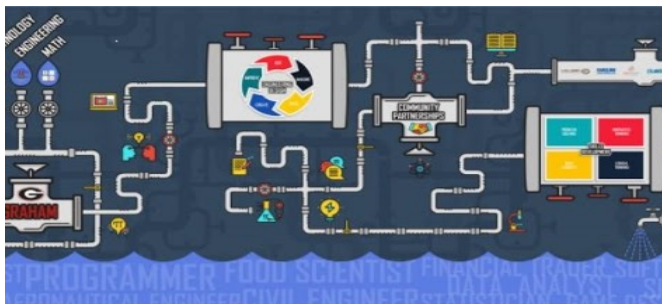

Are you a current 8th grader with an interest in STEM? Do you like observing the natural world? Collecting data and learning about STEM? Making discoveries? Sharing your observations? Participating in hands-on activities? Visiting local STEM businesses and colleges? If so apply for the Engage in Science Summer STEM Tour.

Activities will be held at Graham High School in their state of the art Science Labs. Daily field trips will be included. There is no charge for the camp, and transportation to and from the camp will be provided, if needed. Students must be able to attend all day, every day. Students will need to provide their own lunch each day.

This program is open to all current 8th graders in ABSS. If you are truly interested in learning more about STEM opportunities then apply at this link:
