

## ***Directions For Solving Algebraic Equations Activity***

- ❖ ***Cut out equations and solutions.***
- ❖ ***Match the Equation with the correct solution.***
- ❖ ***Attach a paper showing all your work.***
- ❖ ***Once you have matched the equations with the solution.***
- ❖ ***Have teacher check your work then glue the matches to your paper.***
- ❖ ***Put equations under one side of the scale and their solutions under the other side of the scale. (this demonstrates that each side on the scale is equal to the other)***
- ❖ ***Do neat work and decorate your poster.***
