

Directions:

Plot the following information to create a LINE graph, showing the relationship between altitude and temperature. On the FRONT, write a sentence explaining how altitude affects temperature.

Altitude (meters)	Temperature (°F)
0	80
1,000	70
2,000	60
3,000	50
4,000	40
5,000	30
6,000	20
7,000	10
8,000	0
9,000	-10
10,000	-20

Altitude

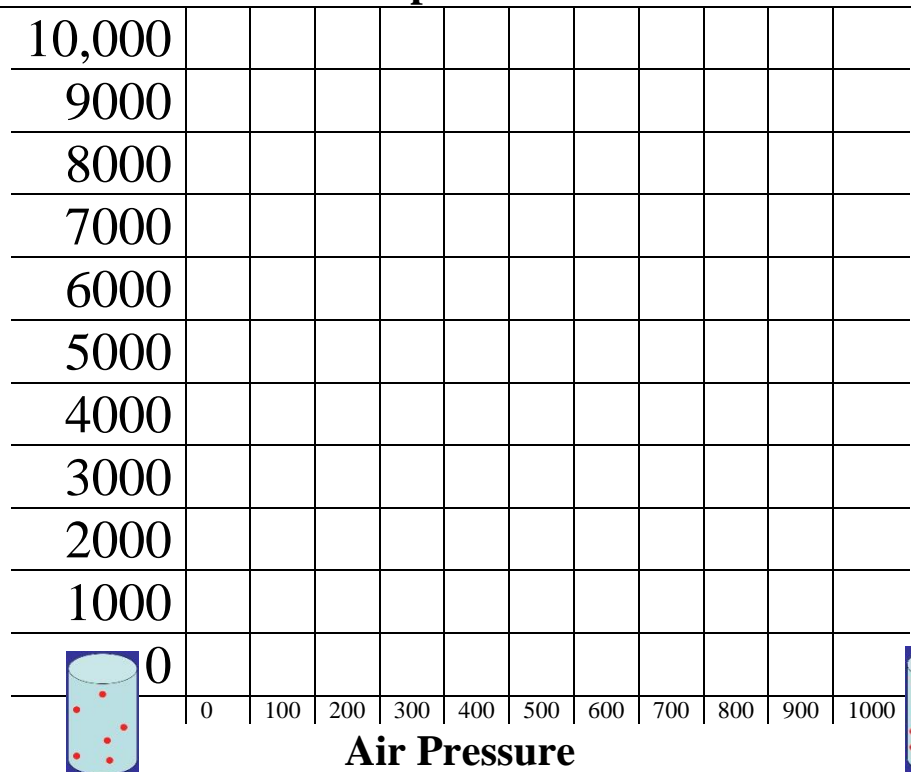

Temperature

Directions:

Plot the following information to create a LINE graph, showing the relationship between altitude and air pressure. On the FRONT, write a sentence explaining how altitude affects air pressure.

Altitude (meters)	Air Pressure (millibars)
0	1000
1,000	900
2,000	800
3,000	700
4,000	600
5,000	540
6,000	470
7,000	400
8,000	355
9,000	310
10,000	265
