

MAKE YOUR OWN GRAPH

Create your own graph showing the composition of INHALED AIR.

Choose from: horizontal multiple bar graph, vertical multiple bar graph, single bar graph, pictograph, or comparison line graph.

Include the following:

1. Labeled gasses in the correct proportions: nitrogen, oxygen, argon, carbon dioxide.
2. Graph title.
3. Label the X-axis and Y-axis.
4. Key.
5. Graph should be neat and follow your chosen scale.
