

## 22. Water Cycle Picture – Alternative Assignment

For each step in the water cycle, write a sentence explaining what is happening and draw a FULL COLOR picture of that step. You MUST LABEL the step in your picture. An example has been done for you.

<b>Aquifer</b>	A storage area for water underground. This is where groundwater is located.	 A cross-sectional diagram of the ground showing a well and an aquifer. The well is a vertical pipe with a white cap, labeled 'well'. Below the ground surface is a layer of brown soil, and below that is a blue layer labeled 'Aquifer'. A blue arrow points from the aquifer towards the left, and another blue arrow points down into the aquifer from the right. In the background, there is a house with a red roof, green hills, and trees.
<b>Condensation</b>		
<b>Evaporation</b>		
<b>Infiltration</b>		
<b>Precipitation</b>		

<b>Transpiration</b>		
<b>Sublimation</b>		
<b>Run-off</b>		
<b>Respiration</b>
