

After completing your SQ3R, use the information from your notes to create your **Force Brochure**. *Directions: Use p. 628-631. Create a brochure demonstrating your knowledge of force. Be sure to include the following requirements:*

Define these words:

- force
- Newton
- net force
- unbalanced forces
- balanced forces

Explain math calculation and give an example of:

- Combining forces in the same direction
- Combining different forces in opposite directions
- Combining equal forces in opposite directions

Describe the following:

- How force is described.
- Motion of object affected by unbalanced forces
- Motion of object affected by balanced forces

Include at LEAST two (2) illustrations in your brochure!
