Concerns, Analysis**

### **III. Review of “polished draft” of School Improvement Plan**

**As a group we discussed the school improvement plan and the process for “checking” our goals. District leaders provided questions, we used to assess our different goals. The group was divided, based on their interest in our five goals. We then surveyed the five goals, questioned the wording and goals, and ensured the plan provided challenging, yet, achievable goals. Each group then presented their thoughts to the group and we made adjustments when needed.**

### **IV. Closure/Launch:**
