

Career & Technical Education (CTE)

Volume 7 Issue 5

Congratulations Angel Lopez Herrera

Angel attended the **2020 Virtual Manufacturing Skilled Trades Day** at ACC October 8, 9 and 13th and **WON A FREE IPAD**. The **first live call** consisted of **Career Accelerator Program (CAP) Apprentices** speaking about their experience and job duties. On the **second live call**, **ACC students** presented **demonstrations** in their labs. The **final call** involved **assembling and operating a Marble Run Kit**.

During the **virtual event** we learned about **different programs at ACC** that would help us **reach our goal** of going into a **trade job** out of high school. I learned that I **could attend a welding prep class** after school so then I can be **better prepared for the future**. I signed up for the event because **I plan on being a welder** in the **military**. It was a very **pleasant experience** and I would **definitely recommend** it for other kids interested.

*Lateefah Hajeh, 12th grade
CTE student*

Some things that **I learned** was that there were **a lot of things ACC** had to offer and show on **Manufacturing Day** such as **HVAC, machining and welding** etc, I also learned that the **CAP program** in general is great, everything about it. **I signed up** to attend because my **engineering teacher** over at CTEC recommended doing it, so I decided to give it a try and **I got to say it was worth it**. With the information I learned I hope to **spread the word** to friends and family members and tell them about it. The **building of the marble set was fantastic** and it was a fun experience to build. I liked it because once you finish building it, it's a cool object you can have basically almost anywhere.

*Angel Lopex Herrera, 11th grade
CTE student*

NOVEMBER is CAREER DEVELOPMENT MONTH!

Are you interested in the **Career Accelerator Program** ?
There is **one last information meeting** for parents and
students **November 10**

Click **here** for more information.

Are you interested in the military?

Even though we are remote learning, there is **still opportunity** to take the **military entrance exam--ASVAB (Armed Services Vocational Aptitude Battery)**!

Contact **Mrs. R. Johnson**,
CDC, for details!

Hey!

Do you know what **type of career** you would **like to have** someday? Have you begun **looking at job titles**?

Check out this video from a **6 year old** using the **ABC's** to introduce careers?

Video

Inquiring minds want to know...

How do I **write a resume**?

Why do I **need a resume**?

How to **engage in a job interview**?

What types of **jobs fit my personality**? **Skill**?

Do I really **need to further my education**?

What **options do I have beyond high school**?

Can i **receive a credit for working while attending high school**?

SIGN UP here to find out answers with **Mrs. Johnson**,
YOUR CDC!

Did you know...

High school graduates who earn **CTE credits** are about as **likley to enroll in postsecondary education** as the overall student population?

Participating in CTE is associated with a **lower chance of dropping out** and a **higher chance of graduating on time**?
