

Career & Technical Education (CTE)

Volume 7 Issue 7

CTE Internship Highlight

Hey, I'm Jaden Moffitt and I am interning at The Learning Center. The Learning Center is a preschool for ages one to five. I chose to intern here because **I want to major in elementary education**. I **love this internship**. I have really enjoyed **working with all the teachers** and **watching each student grow and learn** every day. At my internship I do many different things. I am a **teacher assistant** to every teacher, I help at the front desk when needed, and I also help with the car line. This **internship has taught me so much** and has really **given me a glimpse** of what I will be doing in the future

F2020 Virtual DECA Bowl for EHS Students

As your CDC, this is one event I look forward each year. I participate by serving as a judge. This means I score the students on his/her role play identifying learned marketing strategies. I am always encouraged and uplifted by the presentation of professionalism, logical thinking, professional attire, creativity, knowledge of marketing skills, and strategies and maturity from the DECA members! They speak with confidence and exuberate their learned knowledge and skills through the role play. For me, it is an "A-Ha" moment of what has truly been learned in the Marketing classes. This excites me as these skills can be used in everyday living and everyday situations!

And just like that....2nd semester begins in **Covid style!**
We are still **zooming, wearing masks, social distancing** and
washing hands!

What **different CTE courses** are being taught **in 2nd semester?**

Accounting 2
Carpentry 2
CompTIA IT Fundamentals
Drafting-Engineering 2

Females in Mechatronics Recruitment

CAP is hosting an event specifically for young women interested in advanced manufacturing and apprenticeships. Tuesday, February 2, 2021 at 6 PM - registration at

Do you know what CTE elective to choose?

Do you know the sequence of CTE courses?

Talk with a CTE teacher or your CDC for assistance!

#ABSSCTE
Learn it.
Love it.
Live it.

There is still time!

CAP applications are due
February 15!

CTE Concentrator = WorkKeys

If you are a **CTE concentrator**, which means you took **two CTE courses** within the **same cluster** with **one being a level 2** course, you are **required** to take the **WorkKeys assessment**. Most concentrators tested in the fall. However, due to Covid and other circumstances not everyone tested. Therefore we will be **hosting another testing session** in the spring semester. If you are contacted to take the assessment, please do not ignore or pass over the contact/email. This is an **opportunity** to **earn a credential** as well as **serve as an advantage** when looking for a job!
